

## Request for Repairs

The Burlington  
1180 Cushing Cir  
Saint Paul, MN 55108

I, \_\_\_\_\_, reside at your property located at 1160 Cushing Cir Apt \_\_\_\_\_.  
(Print tenant's name) (apt. #)

I wish to inform you that Minnesota Statute § 504B.161 requires that every landlord of residential premises, whether the least is in writing or oral, do the following:

- (1) keep the premises and all common areas fit for the use intended by the parties;
- (2) keep the premises in reasonable repair during the term of the lease or license;
- (3) maintain the premises in compliance with the applicable health and safety laws of the state.

Since parties to a lease or license of residential premises may not waive or modify the “covenants of habitability” imposed by this statute, the landlord must do these things regardless of any contrary lease terms (unless the tenant caused the disrepair by his or her own willful, malicious, or irresponsible conduct).

I am requesting repairs within 14 days to the following items or conditions:

1. The front doors to the 1160 building are all in working order and latch properly for no less than fourteen (14) days.
